SIZE COUNTS
The Rotisol Millennium rotisserie is available in 2 widths, 1375mm and 975mm.

Both widths are available in either 3, 5, or 8 spit capacities.

3 & 5 spit models have a varied assortment of optional cabinet bases available including heated drawer units that will hold the spits directly from the rotisserie, static cupboards, or heated cupboards.

The only thing left to decide is the level of finish, or the colour you like.

All models are available in either gas or electric. Gas models have full Australian gas certification and approvals.

model 975.8MSG in Stainless Steel & red front panel

The naked flame from Rotisol's patented gas burners flicker & lick the cast iron hearth creating a spectacular visual, whilst being safe & simple to operate, & very easy to clean. Rotisserie cooking allows the proteins to constantly baste themselves, sealing in natural juices, flavours, and cooking to perfection. The spits are driven by individually controlled electric motors rotating at 2 1/2 times per minute.
