

Electric Rotisserie - "Special Market"

The **SPECIAL MARKET** range of rotisseries have been designed by Rotisol with performance, practicality and mobility in mind. They are the ideal rotisserie for use in supermarkets, deli's, chicken shops, and so forth. They are light weight and compact, so are also the ideal rotisserie for caterers, market stalls and food trucks, and offer a rapid output together with exceptional cooking quality. Conscious of the energy cost involved for our clients, the **SPECIAL MARKET** rotisserie has energy saving reinforced elements, that enables the rapid roasting of a variety of products.

Special Market electric rotisseries are available in 8 different model sizes with capacities from 20 - 56 birds per hour based on a size 12 bird (1.2kg).

The powerful electrical heating elements provide an even distribution of heat throughout the unit - enabling fast batch cooking of poultry; a size 12 bird (1.2 kg) will cook in 1hr.

- Independently switched motors - one motor for each spit.
- Spits with cool-touch Bakelite handles
- Optional halogen interior lighting
- Powerful independent & reinforced electric heating elements
- 2-4 tempered glass doors (able to be easily removed for transport)
- Optional personalised removable hood/roof signage, or illuminated "Rotisserie" sign
- Equipped with bottom drip tray with drain tap.
- Not just for chickens - there is an extensive selection of other spits and accessories available to cook a wide variety of other meats.

Image above shows Rotisol Special Market model 1425.8SMG. An 8 x spit electric unit with the capacity of 40 - 48 birds per hour.
