

SPECIAL-MARKET GAS ROTISSERIE

Introducing the NEW Gas Rotisserie "Special Market" French Designed & Built

The Special Market range of rotisseries have been designed and built by the premium French manufacturer **Rotisol** with performance, practicality, mobility and affordability in mind. The Special Market range are ideal for chicken shops, supermarkets, cafes and deli applications. Their lightweight design also makes them perfect for caterers and mobile food service applications. With their high efficiency ceramic infra red burners, they are also energy efficient and suitable for the rapid roasting of a variety of meats and even vegetables.

Special Market gas rotisseries are available in 3 sizes and 2 finishes - a stainless steel finish and a coloured enamel finish. There are 4, 6 and 8 spit options offering a capacity of between 16 to 40 birds an hour based on a size 12 (1.2kg) bird.

With powerful individual infrared burners facing each spit, the even heat distribution allows for fast batch cooking.

Featuring:

- Independently switched motors with no chain drives.
- Spits have convenient cool touch bakelite handles.
- Optional halogen interior lighting.
- Infrared burners are easy to replace.
- 2 or 4 tempered heat reflective toughened glass doors (easily removed for transport).
- Optional personalised removable hood.
- Bottom drip tray with drainage point.
- An extensive selection of spits to allow cooking of all types of proteins and vegetables.
